

PROSYSTEM

Retinol Peel provides noticeable peeling effects with clear clinical benefits to acne-prone and photodamaged skin. The series of 4 Retinol Peels was well tolerated under physician supervision.

Retinol Peel

Featuring NeoStrata Retinol Boosting Complex™

- Appropriate for mild to moderate skin imperfections as determined by physician
- Retinol, Aminofil® and NeoCitriate® formula reduces the appearance of fine lines, wrinkles, laxity, mottled pigmentation and pore size, and enhances clarity/radiance

Skin Response to Retinol Peel

- During the peel, there was none to minimal irritation
- Erythema and skin tightness increased in the days following the peel
- Visible peeling and flaking occurred starting 2-3 days after the peel and lasting up to a week
- Retinol Peel does not discolor skin
